Dear Students and Parents of Central SD 104:

Earlier this week, I distributed a letter to students and parents, that indicated my desire to host a series of Superintendent Summits to engage stakeholders in collaborative problem solving that refocuses our schools on the district’s stated core beliefs (from Board Policy 1.30 – School District Philosophy).

The Superintendent’s Summit meetings are intended to gather input and feedback from parents, students and staff regarding the current state of academics, extra-curricular activities and culture throughout the District. Our objective will be to engage stakeholders in collaborative problem solving that refocuses our schools on the district’s stated core beliefs. Additionally, we will take your feedback and input on how we can move the District in a more positive direction and rediscover our collective
